Mr. Morano, I'd like to OR this allowance in 104/282. It's a Mag-lev train. Best art was from your area. I searched 104/281-284.

There is an examiner's amendment (below) in addition to the 6/10/05 claims. Basically, it's putting in limitation of a substantially planar air gap. Let me know if you'll accept for 104/282.

Thanks, Burt Mullins AU2834

In claim 1, line 4, delete "at least one of" and insert -one or more- after "which". On line 6, after "attraction forces" insert -across a substantially planar gap--. On line 8, after "restoring forces" insert --across said same substantially planar gap--. On lines 8-10, delete "on the vehicle in response…linear synchronous motor". On line 12, insert --across said same substantially planar gap-- and delete "on the vehicle". On lines 13-14 delete "of said linear synchronous motor".

In claim 4, line 4, delete "at least one of" and insert -one or more- after "which". On line 6, after "attraction forces" insert -across a substantially planar gap--. On line 8, after "restoring forces" insert --
